## Competition Statement

The purpose of this meeting is to serve as a forum to discuss digital and RegTech matters related to securities lending, and to share thoughts and ideas on how best to address those issues. As a reminder, whenever competitors meet, even for legitimate purposes like today’s call, there are anti-trust sensitivities. Participants are reminded that they act independently in the market and that each participant will ultimately make its own independent determination with respect to its own business operations. All participants are reminded not to exchange competitive information or convey business strategies. Through participation in the call, participants agree not to use the process to accomplish any anti-competitive goals or use information obtained during the call for any anti-competitive purpose.
