SECURITIES LENDING: AGENT DISCLOSURE CODE OF GUIDANCE

September 2010
This Code of Guidance, which has been drawn up under the auspices of the Securities Lending and Repo Committee, a committee of market practitioners, is intended as a best practice guide to assist UK-regulated Lending Agents in providing UK-regulated Lenders (beneficial owner clients) with key information that they should be made aware of, both prior to appointing a Lending Agent under an agency securities lending agreement, and on a periodic basis thereafter.

The Code should be read in conjunction with the Securities Borrowing and Lending Code of Guidance which provides a summary of the basic procedures which UK-based participants in securities/lending borrowing observe as a matter of good practice.

Although designed to cover all the main topics, the Code cannot be expected to cover all possible scenarios and it is strongly encouraged that Lenders take independent advice if they are unsure of the ramifications of entering into a securities lending programme. The Code is not intended to constitute investment, legal or tax advice on the part of the Lending Agent. This should be undertaken by the Lender independently.

Lending Agents should give consideration as to how they should evidence discussions held with regard to this Code.

A detailed review of the regulatory framework is beyond the scope of this Code, however it may be noted that any person who conducts securities lending or borrowing business in the United Kingdom would generally be carrying on a regulated activity in terms of the Financial Services and Markets Act 2000 (Regulated Activities) Order 2001 and therefore would have to be authorised and supervised under that Act unless an exclusion were applicable.

When assessing whether a Lender (client) is suitable for an agency lending programme, with regards to a personal recommendation, the Lending Agent should consider its responsibilities pursuant to the FSA's Conduct of Business Sourcebook (COBS), with particular reference to COBS 9.2.1 – 8.
3. LEGAL FRAMEWORK/APPROVAL TO LEND

Lending Agent recommended discussion points with Lender:
• Encourage the Lender to consider specific legal, taxation or regulatory requirements relating to their particular domicile, entity type, tax status, reporting requirements etc.
• Encourage the Lender’s review of the securities lending authorisation agreement between Lending Agent and Lender (“SLAA”) to ensure it meets their requirements.
• The Lender should confirm that it has the necessary powers to enter into the securities lending agreement.
• Encourage the Lender’s review of the master securities lending agreement between the Lending Agent (acting as Agent) and the borrower (“MSLA”) to ensure it encompasses Lender protections and generally conforms to an industry standard agreement (ie GMSLA or equivalent).
• Discuss the relationship between SLAA and MSLA and how this might impact the Lender.
• Encourage the Lender to ensure that any exceptions/changes they require and/or negotiate are referenced specifically in the SLAA.

4. RISK MITIGATION

Lending Agent recommended discussion points with Lender:
• Risks associated with securities lending including reinvestment and collateral risks.

• Any indemnities offered by the Lending Agent and the scope, details and trigger thereof.
